

NMTESOL Annual Membership Meeting

In this activity, you have a map of New Mexico with one question and two answers. Find the answer to your question by asking others, and help others find theirs by sharing your answers.

Question:

How many Native American communities (Indian tribes) are there in New Mexico? Give the name of one.

Answer #1:

The elevation of the highest mountain in New Mexico is 4,011 meters above sea level (13,160 feet).

Answer #2:

The Palace of the Governors in Santa Fe was built in 1610.
